perma Lubrication Systems for Sewage Treatment Plants

Sewage treatment plants are highly specialized and complex facilities. Safe and trouble-free operation is of utmost importance during the complete process. Important equipment parts like roller- and sliding bearings, chains and spindles are constantly exposed to dirt, water, phosphates and other chemicals. Continuous relubrication can prevent premature equipment wear and breakdowns.

Lubrication points

1 Roller bearings 2 Sliding bearings / Sliding guides 3 Chains

Physical treatment				
	→ Screening	Chain guide roller	✓	✓
	→ Grit / grease removal	Scraper		✓
	→ Sedimentation tank	Impeller wheel	✓	✓
Biological treatment				
	→ Aerated tank	Surface aerator	✓	
	→ Clarification tank	Circular scraper		✓
Sludge treatment				
	→ Sludge thickening	Sludge belt conveyer	✓	
	→ Sludge dewatering	Screw press	✓	

Challenges

- Dirt, chemicals, water
- High energy costs

- Hard-to-reach and dangerous lubrication points

- High maintenance costs, lack of staff, spread out equipment and lubrication points

Advantages of automatic lubrication

- ✔ perma lubrication systems **seal and protect** lubrication points **against contamination**.
- ✔ **Less maintenance runs** minimize the time that workers spend in dangerous areas and **increase workplace safety**.
- ✔ Different sizes and precise settings, based on manufacturer recommendations, **prevent lubricant starvation and save lubricant**.
- ✔ **Environmentally friendly, bio-degradable lubricants** in closed systems.

Maintenance made simple!
With our free maintenance and lubrication program (MLP)

Solutions

Direct mounting on the lubrication point: e.g. perma FLEX

- Easy, quick mounting
- For lube-points with little vibration / shocks
- For easy-to-access and safe lubrication points

perma FLEX 125

MONTAGE SET
Direct mounting

Part no. 101476

Remote mounting to the lubrication point: e.g. perma STAR VARIO

- For lube-points with strong vibration / shocks (isolation of lubrication system)
- When workers' safety is at risk: Mounting in safe areas
- For hard-to-access lubrication points

perma STAR VARIO
with LC 250

MOUNTING SET
Remote mounting
with low pressure tube

Part no. 101482

Would you like more information on perma products?

- Detailed product information in our **perma Catalogue**

Applications

Screening:
Lubrication of chain guide rollers

Grit and grease removal:
Lubrication of flanged housing units at the scraper

Primary sedimentation tank:
Lubrication of impeller wheel bearing

Aeration tank:
Lubrication of bearing at surface aerator

Clarifier tank:
Bearing lubrication at the wheel of the circular scraper

Clarifier tank:
Lubrication of pivot bearing at circular scraper

Sludge thickening process:
Bearing lubrication at excess sludge densifier

Sludge dewatering:
Lubrication of flanged bearing at sludge belt conveyor

Sludge thickening process:
Lubrication of bearing at screw press

Individual solutions

perma Product portfolio

Solutions for all types of applications

perma Lubricants

Large selection of high quality lubricants to meet the requirements of your equipment

perma Accessories

Extensive range of accessories and connecting parts for your equipment

perma SERVICE

Project planning, installation and maintenance

perma SOFTWARE

Calculation of lubricant amount: • perma SELECT
Maintenance Lubrication Program: • perma MLP
